...Engineering Africa to productivity

Engineering Africa

to productivity

w w w . r p m . c o m . n g

ABOUT US

As the acronym RPM originally stands for "revolutions per minute" which is the SI unit for "speed" in the science world, We at Rotation and Precision Machines Limited are committed to not just promptly delivering the best of engineering services but also, provide your production with speedy solutions with the aim of decreasing your downtime and increasing your productivity.

As an organization, Rotation and Precision Machines Limited has grown and attained a reputation as the best in class for the delivery of engineering products, solutions and projects to industries that cut across Manufacturing, Oil and Gas, Mining, Construction and so much more in Nigeria and beyond.

We have a formidable team of professional engineers in various engineering fields, Project Managers, and Business Administrators who collaborate to meet your project goals and objectives (on time and within budget) and also provide you with adequate technical support required to keep your business ahead.

Over the years, RPM has built new and maintained existing partnership with global leaders in OEMs and Engineering Service Providers. This has positioned us to deliver exceptional results over the years.

OUR MISSION

To inspire productivity by providing quality and cost effective industrial products, solutions and projects that meet our clients' goals and objectives.

OUR VISION

To attain the niche of market leader in the industrial spares space and earning the status of being the preferred Engineering Solutions Provider for the entire Sub Saharan Africa by the year 2027.

CORE VALUES

Our values reflect who we are and what we stand for as an organization.

Customer Commitment

We develop relationships that make a positive difference in our customers' productivity.

Quality

We provide outstanding products and matchless service that, together deliver premium value to our customers.

Integrity

We uphold the highest standards of integrity in all our actions

Teamwork

We work together, across boundaries, to meet the needs of our customers and to help the company win.

A Will to Win

We exhibit a strong will to be ahead in the industry and in every aspect of our business.

Personal Accountability

We are personally accountable for delivering on our commitments.

WHAT WE OFFER

PRODUCTS

RPM's status as a leading engineering procurement organization is strengthened as a result of existing strategic partnership with leading suppliers and OEMs worldwide.

With guaranteed manufacturer's after sales support and warranty, stock availability and a reliable logistics network with a commitment to timely delivery, we offer various products listed below.

- Bearings
- Conveyor spares
- Industrial hoses
- Industrial Hand and Power Tools
- Carbon Brushes
- Flow Metering Systems
- Automation Spares
- Industrial Adhesives
- Gas Sampling
- Lubrication
- Seals
- Pumps
- Valves
- Gaskets
- Motors
- Gears and drives
- Material Processing
- Standard Sand
- Hydraulic and Pneumatics

WHAT WE OFFER

PROJECTS AND SOLUTIONS

Rotation and Precision Machines Limited offers a robust value suite of bespoke engineering solutions and projects optimized to drive productivity while meeting client's set objectives. These engineering services cut across Manufacturing, Oil and Gas, Food and Beverages, Mining, Corporate Institutions and private/individual clients

Our Projects and services are grouped under:

Mechanical

- Lagging of drums and pulleys
- Machining of parts
- Alignment of pumps and components
- Insulation
- Fabrication
- Maintenance, Repair and Overhaul

- Storage Tanks Inventory
- Maintenance, Repair and Overhaul

Industry Specific Solutions

- Pipelines
 - Flow Metering
 - Calibration
 - Fabrication
 - Maintenance, Repair and Optimization
-
- Electrical
 - Panel (Build & Design)
 - Cable Lagging
 - Remote Monitoring

OUR PRODUCTS

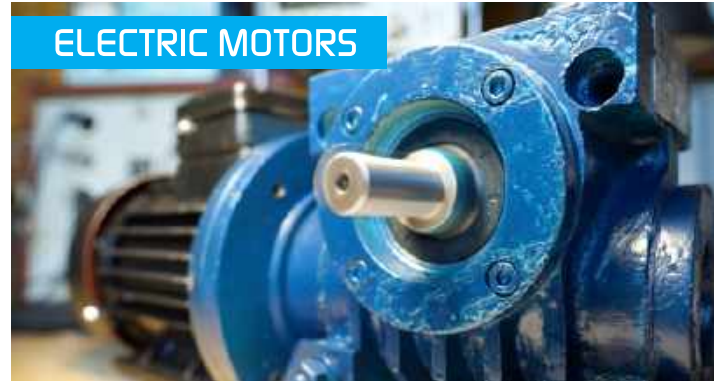

BEARINGS

Bearings are fundamental parts of any machine with moving parts. They constrain relative motion to only the desired motion and reduces friction between the moving parts.

As authorized distributors of SKF, (who is a leading global technology provider with products portfolio ranging from bearings and units, power transmission, seals, mechatronics, services and lubrication systems) in Nigeria, we offer genuine SKF bearings with specialized variants, bearing accessories and components.

ELECTRIC MOTORS

RPM offers high quality electric motors (Wide range including ATEX, Hazardous area certified) for major manufacturing industries.

Electric motors are designed by combining the best available materials with superior technology to provide you the highest efficiency level and a low cost of ownership throughout lifetime.

We supply from major global brands like NORD, ABB, Siemens, Brook Crompton, Weg etc

OUR PRODUCTS

GEAR MOTORS & DRIVES

Gear units and gear motors are quite common in every industrial set up for generation and transmission of mechanical power. RPM offers upgrade and direct replacement for your gear units and drives.

As an authorized distributor for Nigeria, we offer original products from one of the world's leading manufacturers of drive technology – for mechanical and electronic solutions. Their range of products includes a wide selection of geared motors, Electric motors, industrial gear units, frequency inverters, motor starters and frequency inverters for decentralized drive control all in various sizes and versions.

POWER TRANSMISSION BELTS

We are a distinguished name engaged in trading an extensive range of V Belts. Procured from reputed vendors in the industry, our V-Belt are appreciated for high tensile strength and trouble-free performance in testing working conditions. We stock a wide variety of transmission belts like flat belts, round belts, timing belts, ripped belts, and so much more from quality manufacturers like SKF, Challenge and proudly our own bespoke "RPM" wide range of V-belts. (stock available in our Lagos warehouse.)

We also offer other Power transmission products like pulleys, sprockets, hubs, chains etc. also from the above mentioned brands

OUR PRODUCTS

COUPLINGS

The primary purpose of couplings is to join two pieces of rotating equipment while permitting some degree of misalignment or end movement or both.

By careful selection, installation and maintenance of couplings, substantial savings can be made in reduced maintenance costs and downtime.

We offer couplings and elements according to specification from reputable brands including SKF, Siemens, KTR, Bibby, Flender etc

SEALS

A seal is a device which helps join systems or mechanisms together by preventing leakage, containing pressure, or excluding contamination.

We can provide high grade industry standard seals like oil seals, shaft seals and mechanical seals.

We source from preferred manufacturers like SKF, Pioneer Weston, Simrit, Burgman etc.

OUR PRODUCTS

PUMPS

Pumps are vital in most manufacturing process for a positive displacement of fluid energy.

At RPM, we have the capacity to supply various forms of pumps from positive displacement to reciprocating and velocity pumps, whichever best suits your needs.

We deal with only the best in the industries like Settima Pumps Italy, Saer, Pedrollo, Franklin, Ampco, KSB, Pernin and Grundfos etc.

GAS SAMPLING

Production and system safety in industrial processes is dependent upon determining reliable process and operation parameters.

Gas analysis is the key to safe and efficient control of process flow, environment protection and quality assurance in many industrial processes.

In partnership with Enotec and Buehler Technologies, global leaders in the field of process and flue gas analysis, RPM offers gas sampling probes for a wide range of industrial fields.

OUR PRODUCTS

STANDARD SAND

Dry siliceous natural sand calibrated to 0/2mm conforming to norm EN 196-1 and ISO 679 : 2009. Used to control the mechanical resistance of cements and other hydraulic binder.

SNL France is a global leader in the marketing of standard sand. Currently marketed in over 105 countries in the world, RPM is the exclusive authorized distributor for Nigeria.

CONVEYOR BELTS

From mining, to construction and FMCG, we supply conveyor belts for wide range of industry applications.

We have formidable partnership with reputable global brands to supply conveyor belts for different applications. For abrasions and heat resistant applications, we partnered with Dunlop Conveyor Belting. We also have an authorized distribution contract with The Megadyne group for food grade, Polyurethane belts etc. (used in some packing plant applications) for food grade, Polyurethane belts etc.

AUTOMATION SPARES

Switches, Sensors, Relays, Counters, Timers, Limit Switches, Circuit Breakers, Isolators, contactors etc. all have a wide application along industry and products line being the main unit behind every control operation.

We stock and deliver from major global brands like Delta, ABB, Siemens, Schneider, Weidmuller, Omron, Sick, Allen Bradley, Socomec, Danfoss, Carlo Gavazzi etc.

INDUSTRIAL HOSES

A compromised hose can pose serious health and safety risk in any industrial environment. On the other hand, a good quality and functional hose is a key factor in a manufacturing plant's performance.

Armed with this knowledge at RPM, we supply only top grade industrial hoses designed for high and extreme pressures and temperatures.

OUR PRODUCTS

INDUSTRIAL HAND & POWER TOOLS

RPM offers all the essential tools required for a safe and productive environment within an engineering workshop.

Ranging from Hand, Power and Cutting Tools, we supply products that have been carefully selected by experienced Tools and Maintenance specialists like Milwaukee, Dewalt, Bahco, Facom, Stanley, Faithfull & many other premium brands to ensure you receive the best quality service and value in the marketplace, whilst ensuring your safety.

WELDING SOLUTIONS

We are authorized distribution partner of Hyundai Welding Company, a welding solutions company from South Korea and a member of the Hyundai group.

Products range of welding electrodes includes the mild steel, stainless steel and low hydrogen electrodes and varieties of welding wires like SAW, MIG, FCW (Open Arc and Gas Shielded) and also Welding maintenance services in various industries like Cement, Sugar, Power, Mining, Chemical etc.

OUR PRODUCTS

INDUSTRIAL ADHESIVES

RPM LTD are proud partners with Henkel's Loctite, which is the world-renowned trusted choice for engineered, high-performance adhesive, sealant and coating solutions.

Henkel's Loctite manufactures a wide range of industrial sealing solutions for all industries and with vast stock of these products presently available at our Lagos facility.

Designed to enable customer innovation, increase reliability and improve manufacturing operations, the Loctite expansive product portfolio offers solutions for the most demanding industry applications.

MATERIAL PROCESSING

In our quest to answer to all your maintenance needs, we have partnered with Rematiptop, the world renowned market leaders in the field of Adhesives and rubber solutions, (Cement SC2000, SC4000, Remafix, Primer PR 200 etc.). Skirting, (Remaskirt range of products) Hot and Cold belt splicing materials, Pulley Lagging, (Remagrip series) Wear protection lining (Remaline series) etc.

Please Contact us for any of these range of products and we would be delighted to be of utmost assistance.

OUR PRODUCTS

FLOW METERING SYSTEMS

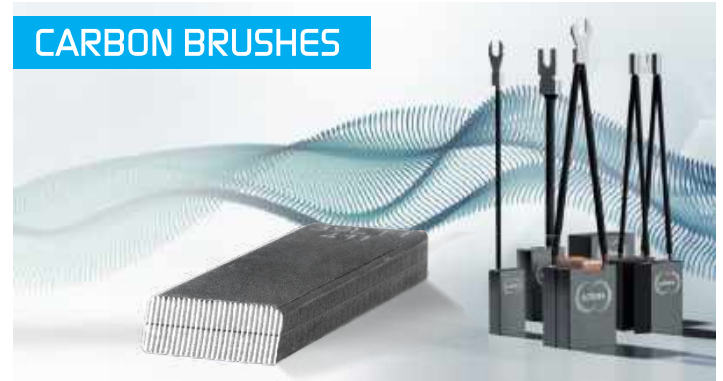

Flow metering systems are designed to ensure our clients are not short changed while receiving products and enhances accuracy during production processes.

Our application team offer bespoke flow metering systems to meet the needs of your facility. We identify, advise and provide the best fit based on your processes.

These systems feature outstanding high accuracy and performance, regardless of pressure fluctuations, temperature variation and viscosity.

CARBON BRUSHES

carbon brushes are vital component for the proper functioning of an electric motor; direct or alternating current. Their job is to create the electrical contact with the collector or the slip rings of the rotating part of the machine.

RPM has partnered with Schunk Carbon Technology, a world leader in the development, production, and application of carbon-based solution to offer industrial specific carbon brushes.

We offer mechanical, electrical and thermal carbon brushes that are reliable and resilient.
